EDUCATION

Howard University | Washington, DC | Expected May 2028

Bachelor of Business Administration, Computer Information Systems - Cybersecurity Concentration | Minor in Data Science

Relevant Coursework: Management Information Systems, Software Design, Database Management, Data Science, Java Programming

SKILLS & CERTIFICATIONS

Cloud & Technology: AWS (Cohort Participant), Linux, Hybrid Cloud Basics, Google Workspace, Microsoft Excel, PowerPoint, Word

Data & Analytics: Python (Jupyter Notebook), MySQL, data cleaning, data visualization (Matplotlib, Seaborn), basic statistical analysis

Cybersecurity: Network & endpoint security, risk assessment, threat detection & response, Linux security, security automation (Python)

Professional: Written and verbal communication, team collaboration, project coordination, organization, attention to detail, problem-solving

Certifications: Google Cybersecurity Certificate (Aug 2025) | Google Data Analytics (In Progress)

WORK & LEADERSHIP EXPERIENCE

IBM Z Student Ambassador | Washington, DC | Spring 2026 – Present

- Represent IBM's mainframe technology on campus by connecting peers and faculty with industry resources and learning opportunities.
- Attend monthly leadership training sessions and industry events to build professional skills and stay current on enterprise tech trends.
- Create content and blog posts sharing key takeaways from sessions to grow a professional presence in the tech community.

Research Software Engineer Assistant | Washington, DC | Summer 2026 - Present

- Support faculty-led research on machine-readable product taxonomies, applying database and structured data modeling concepts to AI classification and retrieval systems.
- Refine product data and documentation to improve training signals and consistency for AI models while learning research software engineering practices

HU Boeing Academy | Washington, DC | Fall 2026 – Present

- Selected as a Boeing Scholar through a competitive application process to receive technical training, coaching, and industry exposure in technology and aerospace.
- Participate in professional development sessions covering industry skills, networking, and career preparation.
- Matched with an industry coach to support academic and professional goals, including guidance on Boeing internship and tech career opportunities.

Tauheed Academy | Washington, DC | Co-Director | Fall 2024 – Spring 2026

- Co-direct weekly program for ~15 elementary students, coordinating schedules, materials, and tracking participation trends.

Black Eudaimonia | Washington, DC | Outreach Chair | Fall 2024 – Spring 2026

- Led outreach for ~18 events over three semesters, supervising 2 interns and maintaining relationships with 10+ campus partners.

PROJECTS & APPLIED EXPERIENCE

Academic Data Projects | Howard University | Student Analyst | Spring 2026

- Cleaned, analyzed, and visualized a real civic dataset using Python in Jupyter Notebook, producing charts and a written report communicating key findings.
- Built a relational database subsystem for a university information system using MySQL, including ER diagrams, normalized schema, and SQL queries.

Brew & Byte — CyberHub Café Concept | Kigali, Rwanda | Founder & Project Lead | 2023 – Present

- Designed a community café concept centered on digital education, cybersecurity awareness, and entrepreneurship for underserved markets.
- Built an early business plan covering membership structure, workshop programming, and sponsorship revenue based on informal market research.

ACTIVITIES & HONORS

AWS ReachBack Cohort | HU Boeing Academy Scholar | National Society of Black Engineers (NSBE) | Women in Cybersecurity (WiCyS) | Black

Eudaimonia Executive Team | 21Cap Advantage Program | Opportunity Scholarship Recipient | Dean's List
